NosytLabs Services Overview

Notable Opportunities Shape Your Tomorrow

Effective: May 2025

AI Solutions

Our AI solutions leverage cutting-edge machine learning and deep learning technologies to solve complex business problems. We develop custom AI models, implement natural language processing systems, create computer vision applications, and build predictive analytics platforms tailored to your specific needs.

Service Packages

Package	Description	Starting Price
AI Assessment	Comprehensive evaluation of your business processes to identify AI implementation opportunities	**$5,000**
Custom AI Model Development	Development of tailored AI models for specific business problems	**$15,000**
Natural Language Processing	Implementation of NLP systems for text analysis, chatbots, and automated content generation	**$12,000**
Computer Vision Solutions	Development of image and video analysis systems for object detection, recognition, and classification	**$18,000**
Predictive Analytics	Implementation of data-driven forecasting and decision-making systems	**$10,000**
AI Integration	Integration of AI capabilities with existing systems and workflows	**$8,000**

Ongoing Services

- Model training and optimization: **$2,500/month**
- Performance monitoring and reporting: **$1,500/month**

- Data pipeline management: **$2,000/month**

Web Development

We design and develop modern, responsive web applications that provide exceptional user experiences across all devices. Our web development services include front-end development, back-end development, e-commerce solutions, content management systems, and progressive web applications.

Service Packages

Package	Description	Starting Price
Website Audit	Comprehensive evaluation of your existing website with detailed recommendations	**$1,500**
Basic Website	5-10 page responsive website with basic functionality	**$5,000**
Corporate Website	10-20 page responsive website with advanced features and CMS	**$10,000**
E-Commerce Solution	Full-featured online store with product management, payment processing, and order fulfillment	**$15,000**
Custom Web Application	Tailored web application with specific business functionality	**$20,000+**
Progressive Web App	Web application with native app-like features and offline capabilities	**$18,000**

Ongoing Services

- Website maintenance: **$500/month**
- Content updates: **$300/month**
- Performance optimization: **$800/month**
- Security monitoring: **$600/month**

Mobile Development

We create high-performance mobile applications for iOS and Android platforms that engage users and drive business growth. Our mobile development services include native app development,

cross-platform development, mobile UI/UX design, app testing and optimization, and ongoing maintenance and support.

Service Packages

Package	Description	Starting Price
App Strategy & Planning	Comprehensive planning including market research, user personas, and feature prioritization	**$3,000**
UI/UX Design	User interface and experience design with wireframes, prototypes, and visual design	**$5,000**
Native iOS App	Development of native iOS application with Swift	**$15,000+**
Native Android App	Development of native Android application with Kotlin	**$15,000+**
Cross-Platform App	Development of cross-platform application with React Native or Flutter	**$20,000+**
App Testing & Optimization	Comprehensive testing, performance optimization, and app store preparation	**$4,000**

Ongoing Services

- App maintenance: **$1,000/month**
- Feature updates: **$1,500/month**
- Performance monitoring: **$800/month**
- User analytics: **$600/month**

3D Printing Services

We provide comprehensive 3D printing services for prototyping, modeling, and production. Our state-of-the-art equipment and expertise allow us to create high-quality 3D printed objects for a wide range of applications, from concept models to functional prototypes and end-use parts.

Service Packages

Service	Description	Starting Price
3D Model Design	Creation of 3D models from concept sketches or specifications	**$200/hour**

3D Scanning	High-resolution scanning of physical objects for digital reproduction	**$150/hour**
Rapid Prototyping	Quick turnaround printing of concept models and prototypes	**$50/hour + materials**
Functional Prototypes	Printing of functional prototypes with specific material properties	**$75/hour + materials**
Small Batch Production	Production of small batches of end-use parts	**Custom quote**
Post-Processing	Finishing, painting, and assembly of printed parts	**$40/hour + materials**

Materials Available

- PLA: **$25/kg**
- ABS: **$30/kg**
- PETG: **$35/kg**
- TPU (Flexible): **$45/kg**
- Nylon: **$60/kg**
- Carbon Fiber Reinforced: **$80/kg**
- Specialty Materials: **Custom quote**

Consultation Services

Our expert consultants provide strategic guidance and technical expertise to help businesses leverage technology effectively. We offer consultation services in AI strategy, digital transformation, technology selection, and implementation planning.

Consultation Rates

Consultant Level	Expertise	Hourly Rate
Junior Consultant	Technology implementation and support	**$100/hour**
Senior Consultant	Technical architecture and solution design	**$175/hour**
Principal Consultant	Strategic planning and enterprise architecture	**$250/hour**
Executive Consultant	C-level advisory and digital transformation strategy	**$350/hour**

Packaged Consultation Services

- Technology Assessment (1 week): **$5,000**
- Digital Transformation Roadmap (2 weeks): **$10,000**
- AI Strategy Development (3 weeks): **$15,000**
- Technology Selection & Vendor Evaluation (2 weeks): **$8,000**

Terms and Conditions

- All prices are in USD and subject to change without notice.
- Actual project costs will be determined based on specific requirements and scope.
- A detailed proposal will be provided after initial consultation.
- Standard payment terms: 50% upfront, 50% upon completion for projects under $10,000.
- For larger projects: 30% upfront, 30% at midpoint milestones, 40% upon completion.
- Monthly service contracts require a minimum 3-month commitment.
- All intellectual property rights transfer to the client upon full payment.
